InterSystems IRIS resources provide access for users based on the rights they hold. The following resources are currently available:

Page size: 0 Results: 68 Page: 1 of 1

☐	Name	Description	Public Permission	Resource Type	
☐	%Ens_Agents	Grants access to Agent browser page		Interoperability	Edit Delete
☐	%Ens_AlertAdministration	Grants access to administrative functions for Interoperability Managed Alerts via USE		Interoperability	Edit Delete
☐	%Ens_Alerts	Grants access to view and edit Interoperability Managed Alerts		Interoperability	Edit Delete
☐	%Ens_ArchiveManager	Grants access to the Interoperability Archive Manager		Interoperability	Edit Delete
☐	%Ens_BPL	Grants access to BPL		Interoperability	Edit Delete
☐	%Ens_BusinessRules	Grants access to Business Rules		Interoperability	Edit Delete
☐	%Ens_Code	Grants access to all Interoperability classes and routines		Interoperability	Edit Delete
☐	%Ens_ConfigItemRun	Controls starting and stopping configuration items		Interoperability	Edit Delete
☐	%Ens_Credentials	Grants access to Interoperability Credentials		Interoperability	Edit Delete
☐	%Ens_DTL	Grants access to DTL		Interoperability	Edit Delete
☐	%Ens_DTLTest	Grants access to the DTL Testing utility		Interoperability	Edit Delete
☐	%Ens_Dashboard	Grants access to the Interoperability Dashboard		Interoperability	Edit Delete
☐	%Ens_Deploy	Grants access to Interoperability deployment activities		Interoperability	Edit Delete
☐	%Ens_DeploymentPkg	Controls the construction of Interoperability deployment packages		Interoperability	Edit Delete
☐	%Ens_DeploymentPkgClient	Controls client side use of Interoperability deployment packages		Interoperability	Edit Delete
☐	%Ens_EDISchema	Grants access to EDI Schemas		Interoperability	Edit Delete
☐	%Ens_EDISchemaAnnotations	Grants access to EDI Schema Annotations		Interoperability	Edit Delete
☐	%Ens_EventLog	Grants access to the Interoperability Event Log		Interoperability	Edit Delete
☐	%Ens_ITK	Grants access to the ITK		Interoperability	Edit Delete
☐	%Ens_Jobs	Grants access to Interoperability Job data		Interoperability	Edit Delete
☐	%Ens_LookupTables	Grants access to Interoperability Lookup Tables		Interoperability	Edit Delete
☐	%Ens_MessageContent	Grants access to the contents of messages		Interoperability	Edit Delete
☐	%Ens_MessageDiscard	Controls discarding of queued and suspended messages		Interoperability	Edit Delete
☐	%Ens_MessageEditResend	Grants access to Message Edit and Resend		Interoperability	Edit Delete
☐	%Ens_MessageExport	Grants access to export messages via the portal		Interoperability	Edit Delete
☐	%Ens_MessageHeader	Grants access to Message Header data		Interoperability	Edit Delete
☐	%Ens_MessageResend	Grants access to Message Resend		Interoperability	Edit Delete
☐	%Ens_MessageSuspend	Controls the manual suspension of messages		Interoperability	Edit Delete
☐	%Ens_MessageTrace	Grants access to Message Trace		Interoperability	Edit Delete
☐	%Ens_MsgBank	Grants access to Message Bank status information		Interoperability	Edit Delete
☐	%Ens_MsgBankConfig	Grants access to Message Bank configuration		Interoperability	Edit Delete
☐	%Ens_MsgBank_Dashboard	Grants access to the Enterprise Interoperability Monitor Page		Interoperability	Edit Delete
☐	%Ens_MsgBank_EventLog	Grants access to the Message Bank Event Log		Interoperability	Edit Delete
☐	%Ens_MsgBank_MessageContent	Grants access to the contents of messages in the Message Bank		Interoperability	Edit Delete
☐	%Ens_MsgBank_MessageEditResend	Grants permission to edit and resend messages from the Message Bank		Interoperability	Edit Delete
☐	%Ens_MsgBank_MessageHeader	Grants access to Message Bank Header data		Interoperability	Edit Delete
☐	%Ens_MsgBank_MessageResend	Grants permission to resend messages from the Message Bank		Interoperability	Edit Delete
☐	%Ens_MsgBank_MessageTrace	Grants access to the Message Bank Visual Trace		Interoperability	Edit Delete
☐	%Ens_PortSettingsReport	Grants access to central Port Settings Report information		Interoperability	Edit Delete
☐	%Ens_Portal	Grants access to the Interoperability Management Portal		Interoperability	Edit Delete
☐	%Ens_ProductionConfig	Grants access to production configuration activities		Interoperability	Edit Delete
☐	%Ens_ProductionDocumentation	Controls the creation of production documentation		Interoperability	Edit Delete
☐	%Ens_ProductionRun	Controls starting and stopping productions		Interoperability	Edit Delete
☐	%Ens_PubSub	Grants access to the Interoperability PubSub management pages		Interoperability	Edit Delete
☐	%Ens_Purge	Controls purging of Interoperability data		Interoperability	Edit Delete

	Name	Description	Public Permission	Resource Type		
☐	%Ens_PurgeSchedule	Grants access to scheduling of Interoperability purge tasks		Interoperability	Edit	Delete
☐	%Ens_PurgeSettings	Grants access to change the settings used for manual purging of Interoperability data		Interoperability	Edit	Delete
☐	%Ens_Queues	Grants access to Interoperability Queue data		Interoperability	Edit	Delete
☐	%Ens_RecordMap	Grants access to Interoperability RecordMaps		Interoperability	Edit	Delete
☐	%Ens_RestrictedUI_SystemDefaultSettings	Restricts a User to editing System Default Settings to those the user has USE privilege of.		Interoperability	Edit	Delete
☐	%Ens_RoutingRules	Grants access to Routing Rules		Interoperability	Edit	Delete
☐	%Ens_RuleLog	Grants access to the Rule Log		Interoperability	Edit	Delete
☐	%Ens_Rules	Grants access to all Interoperability Rules		Interoperability	Edit	Delete
☐	%Ens_SettingsReportConfig	Grants access to central Settings Report configuration		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultConfig	Grants access to Interoperability System Default settings		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_ActorPoolSize	Allows a Portal user with limited UI System Default Role to manage the ActorPoolSize setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_AllowedIPAddresses	Allows a Portal user with limited UI System Default Role to manage the AllowedIPAddresses setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_Enabled	Allows a Portal user with limited UI System Default Role to manage the Enabled setting. The user is also required to hold the %Ens_ConfigItemRun:USE privilege		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_IPAddress	Allows a Portal user with limited UI System Default Role to manage the IPAddress setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_LogGeneralTraceEvents	Allows a Portal user with limited UI System Default Role to manage the LogGeneralTraceEvents setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_LogTraceEvents	Allows a Portal user with limited UI System Default Role to manage the LogTraceEvents setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_PoolSize	Allows a Portal user with limited UI System Default Role to manage the PoolSize setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_Port	Allows a Portal user with limited UI System Default Role to manage the Port setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_Schedule	Allows a Portal user with limited UI System Default Role to manage the Schedule setting		Interoperability	Edit	Delete
☐	%Ens_SystemDefaultSettings_Server	Allows a Portal user with limited UI System Default Role to manage the Server setting		Interoperability	Edit	Delete
☐	%Ens_TestingService	Grants access to the Interoperability Testing Service		Interoperability	Edit	Delete
☐	%Ens_ViewFileSystem	Grants access to the fileSelect dialog which allows the user to view the file system		Interoperability	Edit	Delete
☐	%Ens_WorkflowConfig	Grants access to Workflow roles and users		Interoperability	Edit	Delete
